

MOUTASEM MAHMOUD

✉ moutasemmahmoud815@gmail.com ☎ 01141179106 📍 Cairo, Egypt

PROFESSIONAL SUMMARY

Front-End Angular Developer with hands-on experience building responsive and scalable web applications using Angular (17+), TypeScript, and Tailwind CSS. Skilled in converting Figma designs into responsive user interfaces, integrating REST APIs, and working with RxJS for reactive programming. Passionate about clean code, performance optimization, and continuous learning in Agile environments.

WORK EXPERIENCE

Front-End Angular Developer

Sieraj Software Company

09/2025 – 03/2026

Cairo, Egypt

- Developed reusable Angular components and improved UI responsiveness across multiple pages.
- Collaborated with the design team to implement responsive, pixel-perfect UIs from Figma using Tailwind CSS.
- Integrated backend services and REST APIs using RxJS for asynchronous data handling.
- Contributed to automated quality assurance by implementing Playwright E2E testing scripts.
- Optimized front-end performance through lazy loading and clean code practices in Agile workflows.
- Worked on real-world company projects including Ideoz AI and Akooon, contributing to front-end development, UI implementation, API integration, and performance improvements.

EDUCATION

B.Sc. in Computer Science (Information Systems)

El Shorouk Academy

Expected Graduation: 2026

2026

Cairo, Egypt

TECHNICAL SKILLS

Core Tech

JavaScript (ES6+), TypeScript, HTML5, CSS3, RxJS, RESTful APIs

Frameworks

Angular 17+ (Signals, Standalone Components), React Basics

Styling

Tailwind CSS, Bootstrap 5, SASS/SCSS, Responsive Design

Tools

Playwright (E2E), Git/GitHub, Azure Basics, Make.com, Zapier

KEY PROJECTS

Ideoz AI

<https://ideoz.ai>

Developed and maintained front-end interfaces, integrated APIs, and improved performance and user experience.

Akooon

<https://akooon.com>

Built responsive UI components, implemented business requirements, and collaborated on production-ready features.

StyleNest (E-Commerce Platform)

Built a full-featured e-commerce interface with product filtering, dynamic cart management, and Stripe integration using Angular and Tailwind CSS.

Automated HR Reporting System

Created an automation tool using Make.com to sync Clockify data with Google Sheets and automate daily report delivery via email.
